

ABSTRACT

Formal and informal educations in Indonesia have important roles in increasing the quality and quantity of human potential in physical and spiritual. One of religious educations is Islamic Boarding School. Darul Muttaqien Islamic Boarding School has been one of Islamic-based education institutions since 1988 M, or July, 18th 1988. education activities conducted by Darul Muttaqien is TPA, Islamic Kindergarten, Islamic Elementary School, Islamic Junior High School, Madrasah Tsanawiyah, Madrasah Aliyah and Salafiyah Islamic Boarding School. Darul Muttaqien Islamic Boarding School has the main campus located in Jabon Mekar Village, Parung sub-district, Bogor District, West Java. This Islamic Boarding School is in the best big ten in Bogor.

Darul Muttaqien Islamic Boarding School is a modern Islamic Boarding School. However, the interior plan has not been the main priority, even though the interior plan in each space/room in men area can gives convenience especially in studying in order to increase the quality of students, teachers, staffs and the Islamic Boarding School. Beside, room layout in the men's area is not effective, so it disturbs the users' circulation. It is proved from the lack of supporting facility for students activities which is an application of furniture ergonomics standards which refer to standardized guidelines for building standards and school furniture regulated by Ministry of Education and Culture Directorate General of Secondary Education Directorate of Middle School Development in 2011.

Therefore, it needs plan and redesign of Darul Muttaqien Islamic Boarding School interior with the use of Islamic Modern. It is because Today's development is very advanced , so that the school will not be left behind or defeated by public education. It is also expected that the school can dominate and develop all aspect, so they can compete in current globalization era. Thus, by redesigning the interior of Darul Muttaqien Islamic Boarding School, it is expected that it will give benefit for learning and teaching activities.

Key Words : Redesign, Boarding School, Interior
