

ABSTRACT

The study entitled "Framing of the News Issue of Weakening the Rupiah Ahead of Presidential Election 2019 in Online Media" aims to describe how the construction of news framing carried out by online media. The news in this study is news that has a high popularity on the issue of the rupiah, namely in the period 2 September-8 September 2018. Based on that period, four news were found through the google database. The method in this study is descriptive qualitative research method using the theory of framing analysis of Zhongdang Pan and Gerald M Kosicki. By using four structures from Pan and Kosicki namely syntactic, script, thematic, and rhetorical structures. The results of the study in this study indicate that Kompas.com tends to defend one of the parties involved in the issue reported
