

ABSTRACT

Boarding School is one school with a system where students and also teachers and school managers live in different dormitories in a school environment in a certain period of time. The existence of boarding schools is very important in building Islamic understanding for students. As - syifa is one of the boarding school-based educational institutions that has been established since 2005 which consists of kindergartens to high school level. With school facilities starting from classrooms, dormitories, canteens, marts, extracurricular rooms, it makes it easier for students, instructors and administrators to carry out activities. Based on the survey results of the existing conditions of As-Syifa and three other boarding schools, namely Cendikia Madani, Daarut Tauhid and As-Syifa Subang, there are some existing problems related to the interior and also the concept of Islamic application. Redesign As - Syifa Wanareja is carried out to meet student facilities that are tailored to the curriculum and their needs.
