

## ACKNOWLEDGMENT

In the name of Allah SWT, the author would like to say thank you and Alhamdulillah. Upon his blessing and guidance, the author could finish the mini-thesis proposal entitled “The Effect of Ownership Structure and Leverage on Firm Value: Case Study at Banking Companies Listed in Indonesia Stock Exchange (IDX) in 2014-2018”. As one of the requirements to complete the undergraduate degree of International ICT Business at Telkom University.

During this study, the author gets a lot of guidance, support, criticism, advice, and motivation from various parties. Therefore, on this occasion, the author would like to express gratitude and appreciation to:

1. The author’s whole word, beloved parents, Mr. Harmaini and Mrs. Effi Chandra Yanthi, who always supported, gave guidance, love, and pray.
2. Mrs. Dr. Irni Yunita, S.T, M.M, as the author’s academic and mini-thesis supervisor who has helped, gave support, and motivation for the author’s during this study.
3. All lecturer that cannot be mentioned one by one who has given the author’s valuable knowledge.
4. The author’s classmate, International ICT Business batch 6, thank you for everything during the study.
5. For everyone who helped the author to complete the thesis, that author cannot mention one by one. Thank you.

The author admits that this research is not perfect and may have faults in writing due to the limitation of author knowledge and capabilities. With all humanity, the author hopes that all the shortcoming that exists in the thesis can be used as learning material for better research in the future.
