

## ABSTRACT

---

*Bandung Creative Hub is a development project from the city government of Bandung that functions as a provider of space for creative communities in the city of Bandung to carry out activities related to 16 sub-sectors of the creative economy. At Bandung Creative Hub For creative activities that can be lent for free. Design Store, Co. Workspaces on the 2nd and 4th floors, Auditorium rooms, photo exhibition rooms, space dances, animation rooms, Fashion rooms, and Hall rooms. Currently indoor lending in Bandung Creative Hub is still manual, and takes a long time, and there are frequent clashes on loan dates. Each borrower must come to the Bandung Creative Hub to submit a proposal and letter of submission, then wait for the curation time of 2 to 3 weeks, after Acc the borrower must come back to sign statement. Therefore, so that the lending process can be carried out more quickly and efficiently, made room application is made in the web-based Bandung Creative Hub, so that the lending process is faster and can be done online. in developing this application the method used is the waterfall method. with a system development method where the development stage runs sequentially according to stages such as a waterfall. Expected application in development at Bandung Creative Hub.*
