

ABSTRACT

Interior Planning of Coffee Center and SCA (Specialty Coffee Association) Certified Coffee School in Bandung

Indonesia is one of the most coffee-producing countries in the world and West Java is one of the best producers of coffee beans so that on 14-17 April 2016 West Java coffee won first place at the Specialty Coffee Association of America Expo in Atlanta, United States. "Coffee farmers in West Java have just been named six champions in the special coffee competition in Atlanta, United States. Mount Puntang, West Java, won the first place." said West Java Governor Ahmad Heryawan in Bandung, Thursday (04/21/2016).

The increasing consumption of coffee in Indonesia, especially in Bandung, is because enjoying coffee has become one of the needs and lifestyles of many people in everyday life. Coffee makers or baristas are one of the interesting professions at the moment. Coffee is one of the growing business fields, especially in Bandung. This is seen from the number of coffee shops that have sprung up in the city of Bandung. The curiosity of the coffee players on various types of coffee beans with different flavors has encouraged the desire of consumers and coffee makers to study and learn to brew coffee so that participants in coffee schools in Bandung continue to increase each year.

The design of the Coffee Center and the SCA (Specialty Coffee Association) certified coffee school provides a place as a center for activities and education about the world of coffee with the aim to inspire and expand the knowledge and trade concerned with coffee through education and research starting from coffee history and the initial process to the end coffee so that it can be consumed with complete use facilities for community gatherings and coffee makers in Bandung.
