

ABSTRACT

Widyasari, Ayuk. 2018. Directing Fiction Film Sukma About Tembang Macapat as a Prevention of Suicide in Jati Areas Through Adaptation from Tembang Macapat

Suicide is a deviant behavior because it hurts someone to the point of death. In Indonesia, this case is very alarming, because from year to year the number of people who commit suicide is increasing. The police have tried to carry out socialization about suicide but were ineffective because they lacked public interest in socialization which only spoke in public. Therefore, a short film needs to be made which is used as a medium of information to the public.

Keywords: Suicide, Deviant Behaviour, Socialization, Film, Information Media
