

## **ABSTRACT**

*Lawangwangi Creative Space is one of the tourist are in the city of Bandung that incorporates the concept of a work of art with a café. As one of the place of interest good citizens of the city of Bandung and from various city. Lawangwangi Creative Space into a place of tourist interest especially during holidays or red date ( national holiday ). With the large number of visitors who come to make the Café Lawangwangi on fill with visitors. Due to the limited amount of seating make the visitors are required to wait or queue up. At the Lawangwangi cake has no facilities for visitors are line up so that visitors had to wait for queue while standing. The problem of Lawangwangi could suffer losses because there is a possibility there are visitors who decide not to go to the Café. Design of this time is using the method of observation and the method of literature that is by looking from the condition in the field directly in the Cfe Lawangwangi and looking for good data from books, journal that already exists. By using these two methods the result obtained are more diverse.*
