

FOREWORD

Praise and gratitude for the author to say the presence of Allah SWT who has given His gifts and grace so that the author can complete the research as well as this Final Project entitled "Designing Farmbot Scheduling App Using Internet of Things On Android". In the preparation of this Final Project, many writers get help, guidance, support, and prayers from various parties so that the author can finally finish this Final Project well. On this occasion the author wishes to say many thanks to several parties including:

1. Mr. Haris Rachmat, S.T., M.T. As a mentor I who has taken the time to guide, encourage and give direction to the author;
2. Mr. Denny Sukma Eka Atmaja, S.T., M.Sc. as a mentor II who has taken a lot of time to give direction to the author, provide motivation, and guide the author;
3. My senior, Bagus Murdyantoro. As one of the previous farmbot researchers who have spent a lot of time helping the writer in completing this research;
4. My fellow colleague Muhammad Agung Hambali for the help that has been given to the author to finish this research;
5. Friends who have been respondents in this study who have taken the time to help the writer in filling out the submitted questionnaire.

In this study there is hope from the author that this research can be useful for all readers and researchers who will come to develop further Farmbot. The author also realizes that this research is far from perfect both in technical and writing terms. For that reason, the writer with humility is willing to accept suggestions and input for improvement in the future.
