

## LIST OF FIGURES

2.1	Illustration of GPR work. . . . .	7
2.2	Presentation of an A-scan. . . . .	8
2.3	B-scan Signal. . . . .	10
2.4	C-scan Signal. . . . .	11
2.5	Modelling using VNA. . . . .	12
3.1	Framework of experiment of surface clutter reduction for SFCW GPR. . . . .	15
3.2	Experiment Design consisting of Tx, Rx, and VNA. . . . .	16
3.3	A-scan retrieval data scheme. . . . .	17
3.4	B-scan retrieval data scheme. . . . .	17
3.5	Calibration of VNA. . . . .	20
3.6	A-scan. . . . .	20
3.7	B-scan. . . . .	21
4.1	Scenario A in Sequence. . . . .	23
4.2	Scenario A in time domain. . . . .	24
4.3	Scenario B in Sequence. . . . .	25
4.4	Scenario B in Time Domain. . . . .	25
4.5	The undulating shape of surface ground. . . . .	27
4.6	The flat shape of surface ground. . . . .	27
4.7	The undulating shape of surface ground. . . . .	28
4.8	The flat shape of surface ground. . . . .	29
4.9	Scenario A without undulating shape surface ground. . . . .	30
4.10	Scenario A without flat shape surface ground. . . . .	30
4.11	Scenario B without undulating shape surface ground. . . . .	31
4.12	Scenario B without flat shape surface ground. . . . .	31
