

## **ABSTRAK**

Family Spa is defined as a health care activity using water can be a reflexology that can be enjoyed by family members consisting of fathers, mothers, and children. Nerve stretching treatment for relaxation as a treatment is specifically aimed at fathers and mothers who have a higher risk of developing nervous tension. Considering father and mother, or other adult family members have a higher level of routine density than children. Designing this family & Reflexology Spa is a SPA place intended for personal, family and couples with traditional Sundanese nuances that are able to provide a comfortable atmosphere for Spa & Reflexology Spa users. So customers can enjoy the facilities at Spa Family & Reflexology. This Family and Reflexology Spa was designed in Bandung, where the design of the Family and Reflexology Spa provides treatments and massages with the traditional Sundanese concept and will be one of the complementary facilities available in the city of Bandung.
