

ABSTRACT

Bandung is a capital that is developing full of activities and activities, so it requires a center to perform body care and other support to relieve fatigue and stress after undergoing various everyday activities that cause a decrease in physical and spiritual health. The influence of the style and outlook of life of modern society where appearance is a phenomenon that has become a major factor that can help in the socialization also believes that looking good is one thing that is important to pay attention to both men and women. Bandung is still lacking in facilitating the provision of various types of body care and support places such as hair, face and nails in one building area. Roger's Salon, Clinic & Spa is a place that is famous for being exclusive and modern with an artistic, luxurious, majestic feel and complete facilities for various types of body care and other supports that are equipped with modern equipment and services of professionals in their fields. In this design process includes the stages of literature study relating to body care and other support, "exclusive" is a theme obtained from its own brand with a comfort approach. Through this process, it is expected to be able to present the interior design of Roger's Salon, Clinic & Spa which is different from the others that prioritize the level of comfort for customers without forgetting the elements of good and right interior.

Keywords: Roger's Salon, Clinic & Spa, Comfortable, North Bandung
