*At this time the development of the times is quite rapid, especially in big cities like Pekanbaru, the influence of people's lifestyles that tend to experience pressure both family affairs, work, school, lectures, and traffic density in the city of Pekanbaru which is quite dense with high levels of hot air and pollution which is increasing which makes the ozone layer thinning which can reduce protection from ultraviolet rays that enter the Earth. Erha is a skin clinic in Indonesia that has a lot of visitor interest. The average Erha enthusiasts are the upper middle class. Erha Clinic is also one of the companies of PT. Arya Medic. The Erha Clinic was first established in West Jakarta on Jalan Kemanggisan Utama II, No. ^ * on September 28, 1999.*

The purpose of designing Erha Dermacenter among others is to create Erha Dermacenter which refers to Erha's identity. As well as adding the spread of Erha Dermacenter in Indonesia, namely in Pekanbaru. In addition to providing services and skin health care to visitors, the Erha Dermacenter design also creates more complete facilities that prioritize the needs and comfort of visitors.
