

ABSTRACT

Coworking space is a workplace that has the goal of creating collaboration platforms and enhancing fellow coworker networks in certain fields. As a coworking space user, freelancers and startups that are becoming a trend now can improve the economy and answer the limitations of employment. In Bandung, most freelancers and startups are struggling in the fields of games, applications, e-commerce, and others. Bandung is also one of the targets of coworking space because Bandung is dominated by young people who are close to innovation and change. Conclave is one of the coworking spaces in Bandung which has a vision and mission to be able to gather many people from different backgrounds in the field of expertise. By applying the concept of "Exited Collaboration", it is expected that Conclave Coworking Space can become a place for young people in Bandung who want to make changes and innovations in the future through collaboration.
