

ABSTRACT

The dining table is one of the furniture agreements, the dining table can be found anywhere in a closed or open room, this dining table is specifically placed in an open area that can be used by anyone. The area to be addressed is the PKL commercial center located in GOR Saparua Bandung. The GOR area is an area where various sports activities are carried out, from the Saparua GOR in the fields, buildings, parks and one of the new facilities, namely the street vendors' commercial centers. Street vendors themselves form shanties to sell at public facilities but not on the spot, street vendors themselves can display stalls consisting of dining tables, or holding a pedestal and small table. However, taking into account those in places that are not supposed to be able to regulate existing public facilities. The dining table used by street vendors consists of wooden tables and plastic chairs, but there are still many table chairs provided by traders who are not so safe and comfortable. In terms of the size of the table that does not comply with existing standards.
