

## **ABSTRACT**

Sexual harassment is a fact that exists in today's society that acts of violence against women are numerous and often occur everywhere, as well as violence / sexual harassment especially rape. Violence against women is a very inhumane act, whereas women have the right to enjoy and obtain human rights protection and fundamental freedoms in all fields. Violence / sexual harassment that occurs to a woman due to a value system that places women as weak and inferior to men; women are still placed in a position of subordination and marginalization that must be controlled, exploited and enslaved by men and also because women are still seen as second class citizens. Various sensitive issues befall the lives of women, including sexual violence and sexual harassment. So many violent crimes that occur and afflict women, both in terms of murder, rape, torture in addition to what has been mentioned above. Women are very vulnerable to becoming victims of crime in the field of decency. The plan of this design concept is a self-defense tool for women. This tool is conceptually safe and easy to use. The concept of the design of the self-defense tool is to combine the stun gun system with the brass knuckle. These two tools are both legal and effective weapons for paralyzing enemies

*Keyword : sexual harassment, Self-defense kit, Stun gun, Brass Knuckle*
