

ABSTRACT

Web-Based Mosque Portal Application Module for Amil Zakat, Infaq, and Sadaqah Modules is an application that can be used to make zakat, infaq, and shadaqah payments online. Besides this application displays material regarding zakat, infaq, and Sadaqah. BAZIS is an abbreviation of Zakat, Infaq, and Sadaqah. Zakat, Infaq, and Sadaqah are acts of worship that are recommended to be carried out in the teachings of Islam. This application only focuses on making payment activities and displaying payment notifications that will be sent by zakat, infaq, and shadaqah managers. This web application itself is built using the PHP programming language with the CodeIgniter 3.1 framework.

Keywords: Bazis, Notification, Application.
