

## ABSTRACT

---

*Bina Insani Husada Health Clinic is one of the Health Clinics in Bandung Regency. Where this Health Clinic is a clinic owned by individuals and there is only one in the area that is located on Jl. Raya Sindang Sari, No. 09 Ds.Ciluluk, Kec.Cikancung Kab.Bandung. Existing services in this clinic include general examinations, dental examinations, MCH examinations, and emergencies, in this clinic there are also pharmacies that provide medicines. The problem with this Health Clinic is the absence of a cashier system and financial statement management. Application for making payments and managing financial statements is the result of research that can later facilitate the cashier in processing payments and managing financial statements. The method used in the development of this application is the waterfall method SDLC (System Development Life Cycle) which is implemented with the PHP CI programming language and uses a MySQL database, where testing this application uses Black Box Testing.*
