

ABSTRACT

Education is a right and obligation for all humans, both academic education and religious education. So a school was created with a curriculum that provided a balanced academic and religious education. Schools with such an educational curriculum require students to live in places that have been provided by the school. Schools with such facilities are commonly called Boarding Schools. That way, the needs of public schools with Boarding Schools will be different. To meet the needs of Boarding School students, it requires more complex standards.

One of the boarding schools that provide facilities and curriculum as above is Sulthon Aulia Boarding School High School. Sulthon Aulia Boarding School High School accommodates 269 students this year. With this amount, the school must be able to ensure that the facilities provided can help the learning process so that it runs well and is comfortable for students.

Sulthon Aulia Boarding School, located on Jl. Batu Tumbuh I, Jaticempaka Urban Village, Pondok Gede District, Bekasi City, West Java, has several buildings available, which are the Dormitory Building, the Women's Dormitory Building, the School Building, the Multipurpose Building, and the Canteen Building with a total area of 4505 m². While the area of land owned by this school is 4000 m².

The problem in the Sulthon Aulia Boarding School High School building is that the standards for some of the facilities in this school have not been met, there are acoustic disturbances in the building in this school related to the location next to Halim Perdana Kusuma Airport, and also there is one of the school missions that has not yet been reached related to classroom design.

The target of problem solving that will be carried out on design problems in the construction of Sulthon Aulia Boarding School High School is to use a religious design approach. So that the resulting design in addition to meeting the standards set by the government is also in accordance with the religious provisions contained in the book of the Koran and Al-Hadith that are adhered to by Islam.
