

ABSTRACT

The writing of this report aims to describe the use of products bracelet for the prevention of sexual harassment as an alternative personal protective device to reduce the lack of sexual harassment in Indonesia. As for the background of this writing because Indonesia is one of the countries that has the highest number of sexual harassment. This happens because the number of public transportation in Indonesia is not comparable with many residents. Although the government has added new public transport provided by the use of security guards in every transportation such as Mrt, inter-city trains, busways, it has not been able to overcome the problem that occurred. This uncontrolled amount of sexual harassment is due to the large number of families complaining about crimes caused by the perpetrators. Complaints that are not acted upon, are difficult to obtain and are not carried out when filing problems from victims make the uneasiness of every family as well as victims of sexual harassment.

Key words : *Sexual Harassment, Transportation, Woman*
