

LIST OF TABLES

2.1	5G-NR OFDM in 28 GHz	14
3.1	NYUSIM parameters for proposed 5G channel model in Telkom University and Universitas Sriwijaya areas.	20
3.2	Environment parameters of City X areas.	23
4.1	The PDP in City X with barometric pressure 900 and 1005 mbar. . .	27
4.2	Environment parameters of the proposed 5G channel model in Telkom University and Universitas Sriwijaya areas.	28
4.3	The proposed 5G channel model in Telkom University area with maximum bandwidth.	31
4.4	The proposed 5G channel model in Telkom University area with minimum bandwidth.	31
4.5	The proposed 5G channel model in Universitas Sriwijaya area with maximum bandwidth.	32
4.6	The proposed 5G channel model in Universitas Sriwijaya area with minimum bandwidth.	32
