ABSTRACT

Office layout is one of the supporting factors for the smooth completion of work tasks. There are 3 office layout systems, namely, open space layout, closed layout, and mixed layout. The physical office environment includes light, color, air, and sound. Based on the results of research and discussion that the layout in the Bogor Regency DPRD office uses an open spatial system and a closed layout system. The main lighting physical environment often uses artificial colors and predominantly uses white.

Keywords: office is a place where employees carry out their duties and obligations very comfortably.
