

ABSTRACT

This study aims to determine the effect of banana hearts as an additional ingredient in making roulade, this research is motivated by the desire of the authors to see the lack of use of banana hearts in a food product and use banana hearts in developing roulade products. The purpose of this study was to determine the roulade recipe formulation with grind, steam and deepfry processes. Then add the heart of a banana with a ratio of 70:30, 50:50, 30:70 to give a new aroma, taste, and variant to roulade to be accepted by consumers, this research was conducted using the Experimental method, to find out a series of experiments with find out and investigate by getting the results of these experiments.

Keywords: Banana Heart, Roulade, Recipe
