

ACKNOWLEDGE

On this occasion, the author would like to sincerely thanks and grateful to the all parties who have been involved to support and assist in the process of this undergraduate thesis. These expression of gratitude are addressed to:

1. Allah SWT for His grace, mercy, and guidance to make the completion of this undergraduate thesis become much easier for the author.
2. The most important people in my life, Ayah, Bunda, Daffi dan Syauqiy. Thankyou for the endless love and support.
3. Dr. Nyoman Bogi Aditya Karna, S.T., MSEE., as the first supervisor and Assoc. Prof. Soo Young Shin as the second supervisor of the author who always take the time to guide, assist, provide the advice, and motivation to the author in completing this Undergraduate thesis.
4. The author would like to thank Ma'am Raditiana Patmasari S.T., M.T., Ma'am Nur Andini S.T., M.T., and Mr. Arif Indra Irawan S.T., M.T., for all their assistance and direction from the first year until the last year of the author at Telkom University.
5. All of the Telkom University lecturers who have provided me with knowledge over the years of the author education.
6. The author partner, Deriel Laska Lubna thankyou for accompanying and enduring this beautiful journey together. This couldn't be passed without you.
7. Tito Nursyahbani, who have given the author endless emotional support and good company during this educational process.
8. Ulfa, Gholiyana, Danis, Rizal, Piqri, Melia, Laily, and all of the author best-friends for the warmest support.
9. TT-41-INT classmates, thank you for being a good company during this educational process.
