## **ABSTRACT**

*The development of sports achievement in Indonesia, which tends to decline in almost all sports, is a warning to the public so that their sports activities will not be destroyed in the next generation. Given the many achievements obtained by sports legends, which have contributed greatly in introducing sports in Indonesia. Indonesia has received awards in sporting events at both the Asian and world levels. The historical evidence is poured into historical records, medals and award certificates, and partly in the form of photography and video. In addition to international level sports, the development of sports in Indonesia can also be seen from the existence of sports organized by the Indonesian nation which are National, such as PON (Pekan Olahraga Nasional/National Sports Week).*

*From the description above, an idea is obtained, namely to create a place to accommodate relics in the form of a collection of sports equipment, sports history records, as well as award medals or trophies that have historical value to be translated into designs and a Sports Museum.*

*The National Sports Museum is an option to preserve and appreciate the achievements of sports legends. The design of the National Sports Museum requires circulation, facilities, and other interior needs such as materials, furniture, ventilation and room lighting that has a sports nuance, is strong with the harmonization of modern Indonesian life, which is merged into one.*

*The National Sports Museum is located in the Special Capital Region of Jakarta (DKI Jakarta), DKI Jakarta is the capital city of the country and the largest city in Indonesia. As a center for business, politics and culture, Jakarta is home to the headquarters of state-owned enterprises, private companies and foreign companies and there are also educational tourism facilities such as museums.*

*The National Sports Museum in Jakarta is expected to become a new face for sports culture in Indonesia which is applied to the interior space, and is expected to become a means of educational tourism worthy of a visit by exhibiting awards for the achievements of sports legends and application of storylines with facilities, comfort, and interior design. buildings to make the National Sports Museum look more attractive and function effectively. The design of the National Sports Museum applies a sports psychological approach.*
