PDAM or Regional Drinking Water Company is one of the regionally owned business units, which is engaged in the distribution of clean water to the general public, which is supervised and monitored by the regional executive and legislative officials. According to the Central Statistics Agency (BPS) of Subang Regency, population growth in the city of Subang increases every year, automatically increasing water needs, so that the Subang district government runs to improve service quality at the PDAM Office, in accordance with the vision of PDAM Tirta Rangga Subang Regency, namely to become the best performing drinking water company in West Java in 2020 towards Subang jawara.

Therefore, to improve performance and the best service, what is needed is an efficient office layout, in accordance with the flow of company activities of PDAM Tirta Rangga, Subang Regency, to facilitate workers in carrying out work activities. thus ensuring improvements in work and vision as the best performing water company in West Java can be achieved.

In addition, to improve company performance requires openness among employees, by applying the concept of Open Space, so that collaboration between divisions can increase. And making an office with the Open Space concept more attractive is indirectly, because an office with a design like this eliminates the impression of being rigid in space. This concept is expected to improve the company performance of PDAM Tirta Rangga Subang Regency.
