The library is one of the facilities used to get an education directly or indirectly easily. One of them is about literacy understanding education. Literacy education is a set of real skills, especially cognitive skills in reading and writing. The National Cyber and Crypto Polytechnic College (PSSN) is an educational institute that supports the growth and development of human resources in education through its facilities and infrastructure, one of which is a library. National Cyber and Crypto Polytechnic in order to improve library facilities to improve quality and show the characteristics of one's identity.

Thus, the existence of a library in higher education that meets standards and can accommodate students in improving cognitive skills in reading and writing as well as obtaining information is very much needed.

In addition, to create a new atmosphere in a university library, the author made an effort to design the National Cyber and Crypto Polytechnic in accordance with the nature and character of the college itself.

Keywords: *Interior Library, National Cyber and Crypto Polytechnic, Identity*
