

LIST OF FIGURES

2.1	The concept of the Internet of Everything	4
2.2	IoT World Reference Model	5
2.3	OSI Model in Practice - Example Email [37]	8
2.4	Simple WiFi Network [36]	9
2.5	AP Communicate Using DS [36]	9
2.6	Comparison of IEEE 802.11 Network Standards [36]	10
2.7	Typical Range of Wireless Technology [24]	11
2.8	Growth in Connected Devices	12
2.9	Internet of Things (IoT) Connectivity Technology	12
2.10	Technology that Handles Various Segments	13
2.11	Schematic representation of the RAW mechanism [29]	16
2.12	Example of TIM segmentation mechanism [49]	17
2.13	Key Steps in the Cost-Benefit Process [19]	20
3.1	Study Flowchart	22
3.2	Proposed Sub 1GHz Channelization for the US [14]	25
3.3	IEEE 802.11ah Provides Extended WLAN Range	27
4.1	Coverage Prediction Taman Gor Saparua	32
4.2	Signal Level Histogram (dBm) Histogram Area (km ²) Taman Gor Saparua	33
4.3	Signal Level Histogram (dBm) Histogram (%) Taman Gor Saparua	33
4.4	Coverage Area Based on Signal Strength Transmitter Taman Gor Saparua	33
4.5	Coverage Prediction Taman Lansia	34
4.6	Signal Level Histogram (dBm) Histogram Area (km ²) Taman Lansia	34
4.7	Signal Level Histogram (dBm) Histogram (%) Taman Lansia	34
4.8	Coverage Area Based on Signal Strength Transmitter in Taman Lansia	35
4.9	Coverage Prediction Rest Area Km 147 - Toll Purbaleunyi	35
4.10	Signal Level Histogram (dBm) Histogram Area (km ²) Rest Area Km 147 Toll Purbaleunyi	36
4.11	Signal Level Histogram (dBm) Histogram (%) Rest Area Km 147 Toll Purbaleunyi	36
4.12	Coverage Area Based on Signal Strength Transmitter Rest Area Km 147 - Toll Purbaleunyi	36
4.13	Coverage Prediction Taman Pasupati / Taman Jomblo	37

4.14	Signal Level Histogram (dBm) Histogram Area (km^2) Taman Pasupati / Taman Jomblo	37
4.15	Signal Level Histogram (dBm) Histogram (%) Taman Pasupati / Taman Jomblo	38
4.16	Coverage Area Based on Signal Strength of Taman Pasupati / Taman Jomblo	38
4.17	Coverage Prediction Taman The Marakesh	38
4.18	Signal Level Histogram (dBm) Histogram Area (km^2) Taman The Marakesh	39
4.19	Signal Level Histogram (dBm) Histogram (%) Taman The Marakesh	39
4.20	Coverage Area Based on Taman The Marrakesh Signal Strength	39
4.21	Coverage Prediction in Bandung	40
4.22	Signal Level Histogram (dBm) Histogram Area (km^2) Kota Bandung	41
4.23	Signal Level Histogram (dBm) Histogram (%) Kota Bandung	41
4.24	Coverage Area Based Signal Strength Bandung	41
4.25	Number of User to MCS	42
4.26	Surface km^2 to MCS in Bandung City	42
4.27	Modulation Coding Schemes And Achievable Bit Rates for 1Mhz, 2Mhz, And 16Mhz CBW and 1 Spatial Stream [22]	43
4.28	Transmission Slot in One Hour	47
4.29	Number of user to MCS in Taman Lansia (per site)	47
4.30	Total Tx Completed to Period	48
4.31	Occupied User Capacity to MCS	49
4.32	Maximum Users based on MCS	49
4.33	Projected Customer Growth Chart for 10 Years Implementation with Increase 6%	50
4.34	Business Relationship Between PT Telkom Indonesia (WiFi.id) and PT PLN .	51
4.35	Canvas Business Model on Network Implementation	52
