

## **DEDICATION**

I thank God Almighty for all the abundance of blessings, especially the abundance of health and knowledge in this thesis. I thank my mother EVY ROESINA TJATOERIJANTI, my father dr. BAMBANG SUSILO, who has provided support to me in everything. I thank to Vivi Nida Azizah, who has supported me in this thesis. Finally, I dedicate this work to all students, teachers, and anyone relevant to the knowledge in this research.
