

ABSTRACT

*Indonesia is experiencing a crisis caused by the Covid-19 pandemic which has adversely affected many aspects, so many government officials have responded and not a few have underestimated this virus, one of which is the Indonesian Minister of Health Terawan Agus Putranto. This study aims to compare the framing of news carried out by the media *Republika.co.id* and *Tirto.id* in framing the failure of the Minister of Health Terawan in dealing with the crisis caused by the Covid-19 pandemic, this research was conducted using a qualitative approach and Robert N. Entman's model framing analysis method which focused on two major dimensions, namely the selection of issues and highlighting aspects. Then it is also known how the construction of reality is formed. The results of this study show that *Republika.co.id* framed the news by highlighting the explanation of the underlying causes of the failure to handle the Menkes Terawan pandemic, while *Tirto.id* framed it by highlighting the impact caused by the failure to handle the Menkes Terawan pandemic.*

Keywords: *Robert N. Entman framing analysis, Covid 19 pandemic crisis, Minister of Health Terawan, framing media of *Republika.co.id* and *Tirto.id**
