

## **ABSTRACT**

*Regional language is one of the languages of instruction in elementary schools in the West Java region. Based on the local level curriculum, local content of Sundanese language and literature subjects based on the 2013 revised 2017 curriculum for Elementary School (SD) / Madrasah Ibtidaiyah (MI) levels, local language learning one of the local wisdom that is expected to help get to know yourself and Sundanese culture. So far, most of the teaching and learning activities at school and at home for Sundanese language lessons still use books as media, but these learning media are still not preferred as learning media for children. Because most of the learning systems in elementary schools still do not use current technology, one solution is to create new learning media involving technology. Therefore, the developer applies a puzzle game, which can apply a learning method by playing that is very optimal for the student learning process. The material taught in the Sundanese language class 1 elementary school at SD Negeri Sukapura 02 is dominated by learning to compose words and listen to stories.*
