

ABSTRACT

Surya Mandiri Motor Workshop is a workshop owned by Mr. Suradi which is located on Jalan Raya Bojongsoang Bandung. Surya Mandiri Motor Workshop also provides motorcycle service and spare part sales. The owner of the workshop wants the sale of spare parts at the shop to be marketed to all areas of Bandung and West Java. In addition to helping workshop owners in launching spare part sales, it is hoped that it will make it easier for customers to find spare parts or motorcycle accessories at the Surya Mandiri Motor workshop. With this application, they can manage time more effectively than buying directly, respondents also hope that this application can make it easier to find or buy motorbike spare parts due to the covid-19 pandemic. The application for booking services and sales of motorcycle spare parts is a service for people who want to buy motorcycle equipment and equipment without having to buy directly from the workshop. Therefore, we propose an application for selling motorcycle spare parts and accessories to facilitate data collection on spare parts and can help the public in buying motorcycle equipment or equipment without the need to leave the house.
