

LIST OF FIGURES

2.1	Convolutional Layer Example.	7
2.2	Max Pooling Layer Example with 2×2 Filter and 2 steps.	8
2.3	Average Pooling Layer Example with 2×2 Filter and 2 steps.	8
2.4	Confusion Matrix.	9
2.5	YOLO Architecture [1].	10
2.6	YOLOv3 Architecture [2].	11
2.7	Anchor Boxes.	12
3.1	Block Diagram of The vehicles Body Type Detection System.	14
3.2	Data Train Example.	15
3.3	Data Structure.	16
3.4	The Work of YOLO Illustration	16
3.5	The Sub-Sampling of Data Test of a Sedan.	17
3.6	Detection Result of Sedan.	17
4.1	The result of accuracy parameters test from back view.	22
4.2	The result of accuracy parameters test from side view.	23
4.3	The result of accuracy parameters test from front view.	23
4.4	The result of IoU parameters test from back view.	24
4.5	The result of IoU parameters test from side view.	24
4.6	The result of IoU parameters test from front view.	25
4.7	The result of precision parameters test from back view.	25
4.8	The result of precision parameters test from side view.	26
4.9	The result of precision parameters test from front view.	26
4.10	The result of mAP parameters test from back, side, and front view.	27
