

AUTHOR'S FOREWORD

Alhamdulillahirabbil'alamin, Praise be to the presence of Allah, for His grace and guidance the author can complete this thesis with the title **VISION-BASED VEHICLE BODY TYPE DETECTION USING REAL-TIME OBJECT DETECTION**. The author compiles this thesis as a requirement for completing the Bachelor education in the Telecommunications Engineering study program, Faculty of Electrical Engineering, Telkom University.

This Thesis has been arranged as well as possible. If there are errors or lack of writing for improvement, we welcome constructive criticism and suggestions. With all humility, hopefully, this thesis can be developed towards a better and more beneficial for readers and writers, especially for the world of education and research in telecommunications technology in the future.
