

## DAFTAR SINGKATAN

|                           |                                            |
|---------------------------|--------------------------------------------|
| UVC                       | : Ultraviolet <i>type C</i>                |
| AUMR                      | : <i>Autonomous UVC Mobile Robot</i>       |
| FLC                       | : <i>Fuzzy Logic Controller</i>            |
| Kg                        | : Kilogram                                 |
| DNA                       | : Deoxyribonucleic acid                    |
| LED                       | : Light Emitting Dioda                     |
| DC                        | : Direct Current                           |
| PWM                       | : Pulse Width Modulation                   |
| Ah                        | : Ampere Hour                              |
| W                         | : Watt                                     |
| V                         | : Voltage                                  |
| KHz                       | : Kilo Hertz                               |
| MHz                       | : Mega Hertz                               |
| Rpm                       | : Revolution per Minute                    |
| PCB                       | : Printed Circuit Board                    |
| KB                        | : Kilo Byte                                |
| Nm                        | : Newton Meter                             |
| VAC                       | : Voltage Alternating Current              |
| nm                        | : nano meter                               |
| cm                        | : Centi Meter                              |
| V <sub>r</sub>            | : Velcoity Right                           |
| V <sub>l</sub>            | : Velocity Left                            |
| ICC                       | : <i>Instantaneous Center of Curvature</i> |
| $\mu\text{W}/\text{cm}^2$ | : mikroWatt per-Centi meter kuadrat        |
| BPFK                      | : Balai Pengaman Fasilitas Kesehatan       |
