PREFACE

Praise and gratitude to Allah Subhanahu wata'ala who has given abundant health, strength, and knowledge, so that the author can complete this Final Project entitled "DESIGN CONCEPT OF BED CHAMBER DESIGN OF DELIVERY USING THE FRENCH'S DESIGN PROCESS METHOD" smoothly as a condition for completing S1 Industrial Engineering education at the Faculty of Industrial Engineering, Telkom University.

The author realizes that in the process of making this thesis it is impossible to complete it without the help of many parties. So, allow the author to express his deepest gratitude to:

1. **My Family**, Chairul Syahri's father and Erliana's mother, as well as Nabila's brother and Adam's brother who continue to encourage and support so that this Final Project can be completed properly and on time.
2. **Supervisor I and II**, Mr. Denny Sukma Eka Atmaja, S.T., M.Sc. and Mr. Haris Rachmat, S.T., M.T. who has given motivation, guidance, and knowledge that has enabled this final project to be done well.
3. **GTX Lab friends**, Alghifari, Fahmi, Daffa, Arieftyarto, and Raka who have both struggled to complete their respective Final Projects.
4. **Class TI-41-INT friends** who accompany and have been part of my story for almost 4 years of college.
5. **Bandung friends**, Cheldric, Bale, and Aghni who have helped in times of difficulty and have taken a lot of time to just accompany or where they live in the work of this final project.
6. **My friends at Sispromasi**, especially Caesaltino, and Fuhaidy who have helped a lot regarding the final project even though the topics taken are different.

The author is fully aware that this final project that I am working on cannot be separated from shortcomings and mistakes. Therefore, suggestions and criticisms are highly expected so that this final project can be even better. Finally, I hope this Final Project can be useful for many people and can be used in the future.
