

DAFTAR PUSTAKA

Daftar Pustaka dari Buku:

- Abdel-Bary, Elsayed M. (2003). *Handbook of Plastic Films* (Elsayed M. Abdel-Bary (ed.)). Rapra Technology Limited.
- Ashter, S. A. (2014). *Thermoforming of Single and Multilayer Laminates Plastic Films Technologies, Testing, and Applications* (S. Ebnesajjad (ed.)). William Andrew.
- Baker, A. M. M., & Mead, J. (2002). Thermoplastics. In C. A. Harper (Ed.), *Handbook of Plastics, Elastomers, & Composites* (4th ed., pp. 1–108). McGraw-Hill Professional.
- Canavan, K. (2015). Applications of Textile Products. In R. Sinclair (Ed.), *Textiles and Fashion Materials, Design and Technology* (pp. 531–544). Woodhead Publishing Limited.
- Dodiuk, H., & Goodman, S. H. (2014). Introduction. In H. Dodiuk & S. H. Goodman (Eds.), *Handbook of Thermoset Plastic* (3rd ed., pp. 1–12). William Andrew.
- Drobny, J. G. (2014). *Handbook of Thermoplastic Elastomers* (J. G. Drobny (ed.); 2nd ed.). William Andrew.
- Jabbar, M., & Shaker, K. (2019). Textile raw materials. In *Physical Sciences Reviews* (Vol. 1, Issue 7). <https://doi.org/10.1515/psr-2016-0022>
- Mao, N., & Russell, S. J. (2015). Fibre to Fabric: Nonwoven Fabrics. In R. Sinclair (Ed.), *Textiles and Fashion Materials, Design and Technology* (pp. 307–333). Woodhead Publishing Limited.
- McKeen, L. W. (2013). Introduction to Use of Plastics in Food Packaging. In S. Ebnesajjad (Ed.), *Plastic Films in Food Packaging Materials, Technology, and Applications* (pp. 1–15). William Andrew.
- Puhalla, D. M. (2011). *Design Elements: Form & Spaces*. Rockport.
- Samara, T. (2014). *Design Elements: A Graphic Style Manual* (2nd ed.). Rockport.
- Selke, S. E. (2003). Applications of Plastic Films in Packaging. In E.M. Abdel-Bary (Ed.), *Handbook of Plastic Films* (pp. 235–261). Rapra Technology Limited.
- Shen, L., & Worrell, E. (2014). Plastic Recycling. In E. Worrell & M. A. Reuter (Eds.), *Handbook of Recycling* (pp. 179–190). Elsevier.
- Wilson, A. (2007). Development of the Nonwovens Industry. In S. J. Russell (Ed.), *Handbook of nonwovens* (pp. 1–15). Woodhead Publishing Limited.

Daftar Pustaka dari Jurnal:

- Biel, E. N. (1983). *Cling-Wrap Polyethylene Film* (Patent No. 264092).
- Fages, E., Girone, S., Nchez-Nacher, L. S., Garcí'a-Sanoguera, D., & Balart, R. (2012). Use of Wet-Laid Techniques to Form Flax-Polypropylene Nonwovens as Base Substrates for Eco-Friendly Composites by Using Hot-Press Molding. *Polymer Composites*.
- Hanifah, M. (2020). *Pengolahan Limbah Botol Plastik untuk produk Fashion dengan Hot Textile*.
- Nuryadi, L. (2017). *Pengolahan Plastik Mika sebagai Aplikasi pada Produk Gaya*

Hidup dengan Tema Biopop.

- Seizaria, S., & Utami, W. N. (2017). Eksplorasi Limbah Gelas Plastik untuk Diterapkan pada Produk *Fashion*. *eProceedings of Art & Design*, 4(3).
- Simmons, K. A. (1993). *Multilayer Stretch Wrap Film Inherently Exhibiting Asignificant Cling Property* (Patent No. 5,273,809).
- Utami, W. N., & Puspita, E. A. (2015). Processing Plastic for Fashion Accessories With Hot Textile Technique. *Bandung Creative Movement (BCM) Journal*, 2(1).
