

## **PREFACE**

Assalamualaikum Wr. Wb.

The author would like to thank Allah SWT for blessing and guidance in finishing this Thesis, entitled "Techno Economic Analysis of 5G Fixed Wireless Access Deployment for Urban Residential Market in Indonesia Using 3.5 GHz and 28 GHz Frequency". This Thesis is submitted to fulfill the requirement of the Master Program in The Graduate Program of Electrical Engineering, The School of Electrical Engineering, Telkom University.

In this book, the author realizes there may still be many shortcomings due to my limitations. Therefore the author expects any constructive criticism and suggestion to improve me in the future. Hopefully, this book can provide benefits for the development of the Telecommunication Industry. Aamiin ya rabbal alamin.

Wassalamualaikum Wr. Wb.
