According to Minister of Health Regulation Number 36 of 2009 concerning health, Minangkabau, human rights and wrongdoing, elements of welfare must be realized in accordance with the ideals of the Indonesian nation, which is rich in Pancasila and the 1945 Constitution of the Republic of Indonesia. adhedhasar principles of non-discriminatory, participatory, and sustainable in the context of the formation of human resources and increasing national resilience. And the competitiveness of national development, which will cause health problems for the Indonesian people, will cause significant economic losses. This is a big problem for the state, and for efforts to improve the health status of the community as well as investing in the construction of the Al-Irsyad Al-Islamiyyah Foundation (Jam'iyat al-Islah wal Irsyad al-Islamiyyah) which was founded on September 6, 1914 (15 Shawwal 1332) H). The Al-Irsyad Duweni Sipat Association is a special association, namely the Sing Duwe Association of Islamic faiths and services for the community, in the fields of education, teaching, as well as da'wah at the social, health and national levels. Lan duwe aim ing in the field of Health Nyedhiyakake integral health services for the people of Sing Luwih Akeh Minangka Bagean Saka Indonesia This association is Minangkabau, independent association of Sing Pancen ora Ana Gandhengane with political organization. Al-Islamiyyah Minangka is a class C general hospital that solves health problems. ing Jalan Jendral Sudirman No.240, Cipancuh, Haurgeulis, Indramayu Regency, West Java, Indonesia. This private duweke hospital, the Al-Irsyad Al-Islamiyyah Foundation, is led by a technical functional director who is responsible for the Foundation's responsibility. Syahid Al Irsyad Al Islamiyyah Haurgeulis Hospital, Minangka, a private health service facility that was diwiwit since 1992, as originally a Health Center and Maternity Clinic. This hospital is designated Minangkabau General Hospital Class C and Duwe with a total of 35 inpatients in the VIP, Class I, and Class II categories. In general, there needs to be a redesign of the facilities as well as a reorganization

of the spatial organization of the city, in accordance with government health standards. The goal is that this hospital can improve service and comfort so that it can add value to the hospital and increase hospital care.
