Activities outside the house are fun plus if there is a game it will be very fun, the park is one of the fun places a lot of activities ranging from hanging out with friends, sitting relaxed, or just sitting for a moment to eliminate fatigue, apart from that the function of the park in urban areas is to add visual beauty and is expected to play a role as a place or gathering place that can function as a social function. Parks can be used as family tourist attractions, as well as playgrounds for children, and sports. The use of parks in many aspects in terms of functions and existing infrastructure can be utilized by various groups including visitors who have the habit of smoking in it. As an activity that has an impact on comfort and cleanliness in the park, smokers sometimes choose different places / areas of the park as smoking spots. The impact of this activity is cigarette smoke, cigarette trash and comfort from other visitors. Smokers usually do not realize that the activities they do often can have a bad effect on their surroundings. The form of preventing smoking activities can be specialized in a particular room or area can be designed as a product smoking area as a container to channel the smoking activities. With the smoking area, visitors who don't smoke (passive smokers) can freely enjoy the atmosphere of the park and feel safe from cigarette smoke produced by active smokers.
