Garut Train Station is a means for transportation of rail users in Garut. This station has not been operating for a long time and will be reactivated due to the 2019-2024 Garut Regency Medium-Term Development Plan, which contains support for transportation infrastructure, one of which is trains, which until now many train users are one of the transportation options for residents. In addition, the activation of this train is to meet the needs of tourists who are increasing in number, it also facilitates user activities because the location is very strategic. So the design of development at the Railway Station is carried out to support passenger activities and to support tourism and economic development. Facilities that need to be considered and adjusted to PT KAI's standards to create comfort and effectiveness for rail service users. And provide a space experience for visitors to give their own impression when they are at Garut Station. With the theme "Ngindung ka time mibapa ka era" which has the meaning as ngindung ka time is a villager who has their own culture, customs and beliefs, which is indicated by the locality, while mibapa ka era means not resisting the changing times by keeping abreast of technological developments. there is. It is hoped that it will bring the atmosphere of Garut in its latest design to introduce to the public as well as the attraction of the station
