

## PREFACE

In the name of Allah, the Most Merciful and Generosity. First and foremost, the writer's heartfelt gratitude. May peace and blessings be upon Allah SWT, the Lord of the Universe, and our prophet Muhammad SAW, his family, and his followers. I can honestly say that I gained a lot of insight and knowledge that will help me prepare for the next stage in my life after I graduate from university. Indeed, I could not have reached my current level of achievement without the help of good people around me, whose support has been ongoing since the beginning of this thesis proposal. So, the author wants to say thank you to:

1. I'd like to thank my beloved Mama and Bapak for their unending prayers, love, patience, and support.
2. My brother and sister for everlasting support.
3. Mrs. Indrawati, Ph.D as my first supervisor who has made a significant contribution, any thoughts, and attention to guide, direct, and give advice to the author in the completion of this thesis.
4. Mrs. Yuhana Astuti, Ph.D as my second supervisor thank you for your patience and contributions, and devotion to give her time to consider the completion of this thesis.
5. Mr. Ir. Tri Djatmiko, M. M. has provided guidance to the author since the beginning of the lecture.
6. To my loves one, alm Muhammad Rafli Alghifari, thank you so much for your support, your prayers so that I could continue my thesis.
7. Last but not least, for me and all my closest friends for their unconditional support, cheers to sleepless nights, to tears, to laughs, to great times, to any day or night out with my friends, finally. I'm signing out.

Hopefully, this thesis can make a positive contribution to the development of education or for those who want to do further research.
