

## DAFTAR ISI

|  |             |
|--|-------------|
| LEMBAR PENGESAHAN.....                                 | <i>ii</i>   |
| LEMBAR PERNYATAAN ORISINALITAS.....                    | <i>iii</i>  |
| ABSTRAK .....  | <i>iv</i>   |
| <i>ABSTRACT</i> .....                                  | <i>v</i>    |
| KATA PENGANTAR .....                                   | <i>vi</i>   |
| DAFTAR ISI.....  | <i>viii</i> |
| DAFTAR GAMBAR.....                                     | <i>x</i>    |
| DAFTAR TABEL .....                                     | <i>xi</i>   |
| BAB I PENDAHULUAN.....                                 | <i>1</i>    |
| 1.1 Latar Belakang.....                                | <i>1</i>    |
| 1.2 Rumusan Masalah.....                               | <i>2</i>    |
| 1.3 Tujuan Penelitian .....                            | <i>2</i>    |
| 1.4 Batasan Masalah .....                              | <i>2</i>    |
| 1.5 Metode Penelitian .....                            | <i>3</i>    |
| BAB II LANDASAN TEORI .....                            | <i>4</i>    |
| 2.1 Sensor.....  | <i>4</i>    |
| 2.1.1 Modul Sensor Light Dependent Resistor (LDR)..... | <i>4</i>    |
| 2.1.2 Sensor Passive Infrared Receiver (PIR).....      | <i>5</i>    |
| 2.1.3 Sensor Tegangan ZMPT101B .....                   | <i>6</i>    |
| 2.1.4 Sensor Arus ACS712 .....                         | <i>7</i>    |
| 2.2 Internet of Things (IoT) .....                     | <i>8</i>    |
| 2.3 Mikrokontroler .....                               | <i>9</i>    |
| 2.4 Arduino Uno R3 .....                               | <i>9</i>    |
| 2.5 Arduino IDE.....                                   | <i>10</i>   |
| 2.6 NodeMCU .....                                      | <i>10</i>   |
| 2.7 Relay.....   | <i>11</i>   |
| BAB III PERANCANGAN SISTEM.....                        | <i>12</i>   |
| 3.1 Desain Sistem .....                                | <i>12</i>   |
| 3.1.1 Fungsi dan Fitur.....                            | <i>12</i>   |
| 3.2 Desain Perangkat Keras .....                       | <i>13</i>   |
| 3.2.1 Spesifikasi Komponen .....                       | <i>14</i>   |

|   |   |    |
|---|---|----|
| 3.3.                                      | Desain Perangkat Lunak .....                                | 16 |
| 3.4                                       | Pengujian Sistem .....                                      | 17 |
| 3.4.1                                     | Karakterisasi Sensor PIR .....                              | 17 |
| 3.4.2                                     | Pengujian Modul Sensor LDR .....                            | 18 |
| 3.4.3                                     | Pengukuran dan Pengamatan Daya .....                        | 18 |
| BAB IV HASIL PERCOBAAN DAN ANALISIS ..... |   | 19 |
| 4.1                                       | Hasil Realisasi Alat .....                                  | 19 |
| 4.2                                       | Pengujian Sistem.....                                       | 20 |
| 4.2.1                                     | Pengujian sensor PIR (Passive Infrared Receiver) .....      | 20 |
| 4.2.2                                     | Pengujian Sensor Tegangan ZMPT101B .....                    | 21 |
| 4.2.3                                     | Pengujian Sensor Arus ACS712 .....                          | 23 |
| 4.2.4                                     | Pengujian Modul Sensor LDR (Light Dependent Resistor) ..... | 24 |
| 4.3                                       | Hasil Pengukuran Pada Website Antares .....                 | 25 |
| BAB V KESIMPULAN DAN SARAN.....           |   | 26 |
| 5.1                                       | Kesimpulan .....  | 26 |
| 5.2                                       | Saran.....  | 26 |
| DAFTAR PUSTAKA.....                       |   | 27 |
| LAMPIRAN.....                             |   | 29 |
