PREFACE

All praise and gratitude to Allah SWT for His blessings, and mercy that are always bestowed on the author, so that he can interrupt the thesis with the title **"Hoax News Detection Analysis Using Indobert Deep Learning Methodology"** as one of the requirements for completing a Bachelor (S1) in the Telecommunications and Informatics Business Management Study Program, Telkom University.

In the preparation of this thesis, there are many obstacles and obstacles that the author faces but in the end can get through them thanks to the guidance and help of various parties both morally and spiritually. For this reason, on this occasion, the author expresses his gratitude to:

1. Dr. Andry Alamsyah, S.Si., M.Sc. as a Supervisor who has guided and provided direction to the author since this thesis was made until this thesis was completed properly.

2. Ir. Achmad Manshur Ali Suyanto, M.BA., D.BA. is a Guardian Lecturer who has helped researchers when experiencing obstacles and difficulties during the completion of this thesis.

3. Both parents, Mr. Gunawan and Mrs. Sriwati, and the researcher's younger brother, Alfan A. Rafif, have given prayers and support during the thesis-making process.

4. The closest friends of the researcher: Adristi Iftitah, Marissa Nur Aini, Andini Novidayanti, Ghina Sulthanah, Widya Wilanza, Almi Jamilah, Tri Yunda Ismi, and Anisah Daffa who always provide enthusiasm, motivation, and advice in making this thesis.

5. Friends of MB-42-01 who have provided support in the making of this thesis.

6. All NCT Dream members, especially Na Jaemin, are always able to raise the author's mood so that the author can work on this thesis smoothly.

7. All parties who cannot be named one by one who has helped provide support.

The author apologizes for any mistakes that have been made. Hopefully, this thesis can provide benefits to encourage further research.

Bandung, 20 August 2022
