

ABSTRACT

In today's modern era the internet is very important for all people, with the internet everything can be done easily and quickly. It is undeniable that the influence of the internet is very large in today's era, for example, such as online shopping, online learning, and doing work can be done online. The Department of Communication, Informatics and Statistics (DISKOMINFOTIK) of Bima Town also uses Internet services in carrying out work, such as face attendance which can be monitored through the E-Disiplin application, V-Con (Video Conference) and SIMPEG (Employment Information System) as applications to collect important data. employee.
