

## DAFTAR GAMBAR

|                                                                      |    |
|----------------------------------------------------------------------|----|
| Gambar 2. 1 <i>Emergency Charging Pole</i> .....                     | 19 |
| Gambar 2. 2 Mikrokontroler.....                                      | 20 |
| Gambar 2. 3 Sensor PZEM-004t .....                                   | 21 |
| Gambar 2. 4 Sensor DHT22.....                                        | 21 |
| Gambar 2. 5 Aplikasi Blynk.....                                      | 22 |
| Gambar 2. 6 Panel Surya .....                                        | 23 |
| Gambar 2. 7 Solar <i>Charger Controller</i> .....                    | 24 |
| Gambar 2. 8 Baterai.....                                             | 24 |
| Gambar 2. 9 <i>Inverter</i> .....                                    | 25 |
| Gambar 2. 10 <i>Arduino IDE</i> .....                                | 26 |
| Gambar 2. 11 Router .....                                            | 26 |
| <br>                                                                 |    |
| Gambar 3. 1 Model Sistem Perancangan.....                            | 27 |
| Gambar 3. 2 Diagram Alir Pengerjaan Sistem .....                     | 29 |
| Gambar 3. 3 Perancangan Sistem <i>Controller Hardware</i> .....      | 30 |
| Gambar 3. 4 <i>Arduino IDE</i> .....                                 | 31 |
| Gambar 3. 5 Eagle CAD.....                                           | 32 |
| Gambar 3. 6 Desain Skematik .....                                    | 32 |
| Gambar 3. 7 Desain PCB.....                                          | 33 |
| <br>                                                                 |    |
| Gambar 4. 1 Implementasi Sistem <i>Emergency Charging Pole</i> ..... | 34 |
| Gambar 4. 2 Implementasi Perangkat .....                             | 35 |
| Gambar 4. 3 Tampilan Menu Utama.....                                 | 36 |
| Gambar 4. 4 Tampilan Token Aplikasi .....                            | 37 |
| Gambar 4. 5 Tampilan Menu <i>Widget Box</i> .....                    | 38 |
| Gambar 4. 6 Tampilan <i>Dashboard</i> Sistem Monitoring.....         | 38 |
| Gambar 4. 7 Pengujian Sensor Menggunakan Serial Monitor .....        | 41 |
