

ABSTRACT

Based on the results of the project analysis that has been done by the author, the client needs human resources who have skills in the field of multimedia production in the form of video editing, web design and graphic design.

In the Tembok Creative production team we provide services such as video editing, web design, motion graphics and graphic design for digital client product development. We can also provide references for several other digital products according to what the client wants.

From the results of our production team, we have completed 4 projects with 4 different clients. From first client, we got a project in the form of making a company profile video. Then with the next client we get a web design project. For the third client, we got a graphic design project as well as social media management for the related client. And our last client got a design and logo design project for a clothing brand.
