

ABSTRACT

West Kalimantan Cultural Park is a cultural park building with type B classification which was established in 1980, this building is the cultural center of the West Kalimantan community, several cultural activities such as performances, learning, documentation, and training occur in this building. The method used in this design is in the form of direct surveys, measuring objects, and conducting precedent studies from various sources both directly and online and the literature study used is obtained from books, journals, and papers which will later be used as guidelines in carrying out this design. The purpose of doing this design is expected to give a new look to the interior of the cultural park and can meet the standard of building facilities in its classification.

Key Words: *Taman Budaya Kalimantan Barat, Taman Budaya Klasifikasi tipe b*
