

LIST OF TABLES

3.1	Componen of log file	11
3.3	Time identification	12
3.4	System access time classification	13
3.5	Feature Extraction	14
3.6	Example of data collection in one session	16
3.7	Example of data collection in one session and one event type view	17
3.8	Example of data collection in one session and one event type cart	17
3.9	Example of data collection in one session and one event type purchase	17
3.10	Example of data collection in one session and one event type view by unique category	18
3.11	An example of a detailed grouping based on a unique category	18
3.12	Example Details of the results of grouping data based on unique product categories	19
3.13	Probability of user access to unique products	19
3.14	Example of validating data check dates in one session	21
3.15	Collection of validation data in one session and one event type view based on unique categories	21
3.16	Example of detailed validation of grouping results based on unique products	22
3.17	Example probability validation of user access to unique products	22
3.18	A collection of unique product ids that are the same as the unique validation product ids	23
3.19	Probability comparison of product unique id in repository data with validation data	24
3.20	Example probability verification of user access	25
3.21	Probability comparison of product unique id in repository data with verification data	26
4.1	Overview cross-validation	34
4.2	Probability comparison of product unique id in repository data with verification data	35
B.1	List activity in one day	41
B.2	Data 556657697 in 100 session	42
B.3	Data 556657697 with 100 session of view purchase	42
B.4	Data 556657697 with 100 session of view cart	43
B.5	Data 556657697 with 100 session of unique product	44
B.6	Data 556657697 in 100 session of probability	45
B.7	Data 559177123 in 100 session	46

B.8 Data 559177123 in 100 session of cart	47
B.9 Data 559177123 in 100 session of purchase	48
B.10 Data 559177123 probability on unique product in 100 session (to continue to the next page)	49
B.11 Data 545925192 list in 100 session	50
B.12 Data 545925192 in 100 session of cart	51
B.13 Data 556657697 in one session	52
B.14 Data 556657697 unique category	52
B.15 Data 556657697 unique product	53
B.16 Data 556657697 probability in one session	53
B.17 Data 556657697 compare probability in one session	54
