

FOREWORD

This thesis was written for my Bachelor degree in Communication Sciences with specialization in Marketing Communication from Telkom University, Bandung Indonesia. The subject of this thesis is related to **“Utilizing WhatsApp Media Group to Strengthen Family Communication Bond (A Case Study in Dili, Timor Leste)”**. This is a very fascinating research topic as it is a blend of social sciences ranging from pure communication concepts to human behavioral and habitual characteristics.

After thanking Allah Almighty and I would like to thank a few people here. Thank you so much to my dear mother Maria Madalena da Costa even though you are a single mother but you always work hard to help me up to this stage, many thanks to my father Jose da Conceicao *“in Heaven”*, before he died, he always reminded me not to give up in the struggle, many thanks to brothers; Mitho, Abel, Aldo and Niju and sister; Noi, Ilda and Lola. They made my dream become reality.

I am really grateful to my supervisor (Dr. Lucy Pujasari Supratman, S.S., M.Si), Kaprodi of Communication Sciences (Ms. Idola Perdini Putri, Ph.D) and Dosen Wali (Ms. Dini Salmiyah FIthrah Ali S.S., M.Si) for their guidance, reviews and recommendations. Especially Dr. Lucy who has been guiding me every step of the way as we worked together on this thesis of Utilizing WhatsApp Media Group to Strengthen Family Communication Bond without whom this would not have been possible. These people were always present to help me with my research whenever I needed them.
